Community Partnership Program –

Application for $80,000 community grant for your school

The P&C, on behalf of the school have applied for a Community Grant to assist in financing the remediation and installation of artificial turf on the corner of Storey St and Anzac Parade. **The anticipated cost of our project is $80,000.**

Following is an extract from our Grant application to assist you in voting for us.

**Tell all of your friends and family. Voting closes 1st October 2015.**

Please follow the instructions and vote for our project. If we are successful it will enable us to direct funds to other projects. Our children need for this land to be remediated. It will substantially increase our usable space and create a happier and safer environment.

**PROJECT DESCRIPTION**

We have a large area of land on the southwestern corner of Storey Street and Anzac Parade which requires remediation. To meet growing needs of our school and the community, this area of land must be remediated and transformed to allow our teachers, students and community members to undertake outdoor learning and recreation. Remediation and installation of artificial turf will address these needs.

**Why the project is needed**

Our school has grown from 567 students in 2012 to an anticipated 673 students in 2016. As at 7th August, 2015 we have 658 students. To enable our children to learn and play in a safe environment this area of land needs to be remediated and artificial turf installed. This is of particular importance for our younger students and those less able bodies members of our school community.

Please spread the word and get voting. More forms are available on our website or Facebook page.

Regards,

Matt Ackerman

Principal (rel)
